

31-08-2012

DIRECTLY ADMITTED IN CLASS 1

Handwritten signature and name: **YANUO DVAZI**

Handwritten signature and name: **YANUO DVAZI**

Official Stamp: **QUALIFIED FOR ADMISSION TO HIGHER CLASSES**

Sl. No.	Subject	Remarks	Grade
1	English	1. (a) Ability to understand and use English in various contexts. (b) Ability to communicate effectively in English. (c) Ability to use English as a tool for learning and problem-solving.	A
2	Mathematics	1. (a) Ability to understand and use mathematical concepts and processes. (b) Ability to solve problems involving mathematical concepts and processes. (c) Ability to use mathematical concepts and processes in real-life situations.	A
3	Science	1. (a) Ability to understand and use scientific concepts and processes. (b) Ability to solve problems involving scientific concepts and processes. (c) Ability to use scientific concepts and processes in real-life situations.	A
4	Social Science	1. (a) Ability to understand and use social science concepts and processes. (b) Ability to solve problems involving social science concepts and processes. (c) Ability to use social science concepts and processes in real-life situations.	A
5	Art	1. (a) Ability to understand and use art concepts and processes. (b) Ability to solve problems involving art concepts and processes. (c) Ability to use art concepts and processes in real-life situations.	A
6	Physical Education	1. (a) Ability to understand and use physical education concepts and processes. (b) Ability to solve problems involving physical education concepts and processes. (c) Ability to use physical education concepts and processes in real-life situations.	A
7	Environmental Studies	1. (a) Ability to understand and use environmental studies concepts and processes. (b) Ability to solve problems involving environmental studies concepts and processes. (c) Ability to use environmental studies concepts and processes in real-life situations.	A

Sl. No.	Subject	Remarks	Grade
8	English	1. (a) Ability to understand and use English in various contexts. (b) Ability to communicate effectively in English. (c) Ability to use English as a tool for learning and problem-solving.	A
9	Mathematics	1. (a) Ability to understand and use mathematical concepts and processes. (b) Ability to solve problems involving mathematical concepts and processes. (c) Ability to use mathematical concepts and processes in real-life situations.	A
10	Science	1. (a) Ability to understand and use scientific concepts and processes. (b) Ability to solve problems involving scientific concepts and processes. (c) Ability to use scientific concepts and processes in real-life situations.	A
11	Social Science	1. (a) Ability to understand and use social science concepts and processes. (b) Ability to solve problems involving social science concepts and processes. (c) Ability to use social science concepts and processes in real-life situations.	A
12	Art	1. (a) Ability to understand and use art concepts and processes. (b) Ability to solve problems involving art concepts and processes. (c) Ability to use art concepts and processes in real-life situations.	A
13	Physical Education	1. (a) Ability to understand and use physical education concepts and processes. (b) Ability to solve problems involving physical education concepts and processes. (c) Ability to use physical education concepts and processes in real-life situations.	A
14	Environmental Studies	1. (a) Ability to understand and use environmental studies concepts and processes. (b) Ability to solve problems involving environmental studies concepts and processes. (c) Ability to use environmental studies concepts and processes in real-life situations.	A

Sl. No.	Subject	Remarks	Grade
15	English	1. (a) Ability to understand and use English in various contexts. (b) Ability to communicate effectively in English. (c) Ability to use English as a tool for learning and problem-solving.	A
16	Mathematics	1. (a) Ability to understand and use mathematical concepts and processes. (b) Ability to solve problems involving mathematical concepts and processes. (c) Ability to use mathematical concepts and processes in real-life situations.	A
17	Science	1. (a) Ability to understand and use scientific concepts and processes. (b) Ability to solve problems involving scientific concepts and processes. (c) Ability to use scientific concepts and processes in real-life situations.	A
18	Social Science	1. (a) Ability to understand and use social science concepts and processes. (b) Ability to solve problems involving social science concepts and processes. (c) Ability to use social science concepts and processes in real-life situations.	A
19	Art	1. (a) Ability to understand and use art concepts and processes. (b) Ability to solve problems involving art concepts and processes. (c) Ability to use art concepts and processes in real-life situations.	A
20	Physical Education	1. (a) Ability to understand and use physical education concepts and processes. (b) Ability to solve problems involving physical education concepts and processes. (c) Ability to use physical education concepts and processes in real-life situations.	A
21	Environmental Studies	1. (a) Ability to understand and use environmental studies concepts and processes. (b) Ability to solve problems involving environmental studies concepts and processes. (c) Ability to use environmental studies concepts and processes in real-life situations.	A
